

Safety for the Non-Safety Professional

Hosted by the North Canton Service Office

Who should attend?

Individuals whose job responsibilities require them to handle safety, loss control, OSHA compliance or workers' compensation who are new to the safety field should attend. These individuals include: new business owners, labor and/or management safety committee representatives

What you will learn:

- General OSHA and workers' compensation responsibilities and requirements;
- The principles for developing & maintaining an effective safety & health program in your workplace,
- Compliance requirements for major program areas,
- Resources to further knowledge and how to navigate safety and workers' compensation questions.
