CHAPTER MEETING NOTICE

Fleet Safety: Developing & Sustaining an Effective Program with ANSI/ASSE Z15.1

presented by Northern Ohio Chapter member

Terry Ketchum

ANSI/ASSE Z15.1-2017 Committee Chair

Manager, Health, Safety and Environment
Covestro LLC

ANSI/ASSE Z15.1, Safe Practices for Motor Vehicle Operations, offers a comprehensive framework for effectively managing risks associated with motor vehicle fleets. A recent update to the standard includes revisions to sections on distracted driving and driver qualifications, as well as a new section pertaining to operational policies.

"Z15.1-2017 provides a structured approach to proactively identify system gaps and effectively manage fleet risk," says **Terry Ketchum**, Z15.1-2017 Committee Chair. "Organizations should use the standard to assess their fleet's risk, develop an action plan to close the gaps, implement corrective actions and continuously reevaluate the fleet management system."
